Jelena Reljić

FRONTEND DEVELOPER & QA SPECIALIST

PROFESSIONAL PROFILE

Where Logic Meets Creativity. As a Bachelor of Economics and a Frontend Developer, I bridge the gap between structured business logic and modern web solutions. With a specialized **QA background**, I deliver high-quality, bug-free code with a sharp eye for detail. I am an **AI-forward developer**, leveraging artificial intelligence to optimize workflows, accelerate debugging, and build smarter digital experiences.

CORE TECHNOLOGIES

- ✧ **AI Tools: ChatGPT, Claude, Prompt Engineering**
- ▹ JavaScript (ES6+)
- ▹ React & Redux
- ▹ HTML5 & CSS3/Sass
- ▹ TypeScript
